They are ultra saturated, ultra dense and ultra covering! They are special! In their formula we combined 25 years of experience and professional development.

We present to you three classic colors GELacquer SNB Professional, which will make you even more confident with your clients. You will fall in love with them at first glance!

**GELacquer CLASSIC 01 15 ml**  
**code: GLC01**  
**color: ultra white pastel**

White, whiter than the whitest.  
Exceptionally suitable for French manicure.  
Perfect base for spectacular decorations.

**GELacquer CLASSIC 02 15 ml**  
**code: GLC02**  
**color: ultra black pastel**

Dense and uniquely covering!  
With this GELacquer you will meet the  
expectations of your most capricious  
clients!

**GELacquer CLASSIC 03 15 ml**  
**code: GLC03**  
**color: ultra red pastel**

A classic ultra red color, bright, saturated and dense. GELacquer, the intensity of which will literally leave you breathless.

# *The Classics Collection*

## **RECOMMENDATIONS:**

These colors are with an extremely high content of pigments, therefore the needed curing time of the coating applied must be 1 min under UV LED light and 2 min under UV LED light.

The high density ensures perfect covering even with a single application.

Prior to application sweep the brush along the neck of the bottle to remove any excess color.

The bottles should be tightly closed and kept in a cool dry place.
